

MICHELLE'S WORKSHOPS FOR ADVANCED (B2+, C1, C2)

Michelle's EFL methodology encourages learners to use English in a natural way, like bilinguals, offering **guidance** for the development of **linguistic & communicative competence**, with a **positive approach** to mistakes (like artists' and researchers'). This methodology develops our language awareness and resourcefulness, which helps us become lifelong learners and avoid destructive habits or biases. Language learning becomes a **journey of discovery** of our world and potential, facilitating evolution, individually and as community.

In an atmosphere of respect for people, their lifestyles and cultures, for human talents like empathy and rationality, curiosity, mutual support, critical thinking and creativity, in Michelle's Workshops, learners...

- 👉 use original materials to learn about extraordinary people and topics in our everyday lives
- 👉 develop learning routines to maximize their knowledge & skills while using English
- 👉 use true communication in fun and interesting tasks & projects
- 👉 share their work and feedback – and learn to do so in constructive ways!
- 👉 develop a more in-depth knowledge of what language is & how it works
- 👉 learn to learn (methodology), also from mistakes
- 👉 learn/consolidate their use of ICTs (information & communication technologies)
